

## 3 Ways to Save Money with Lampco Accounts

Saving money is an important goal for many of us, but it can be challenging. Often, we think that we don't have enough money to set aside for savings or we have to give up a chunk of our spending in order to save. However, if you choose the right tools, you can easily save extra cash and even build your savings in the process!

Use this checklist to see if you are taking advantage of all your resources and saving where you should be.

### 1. Look for a Checking Account with Cashback Reward

Kasasa Cash Back® is a checking account that provides cashback on debit card purchases. Unlike credit cards' cashback deals, **Kasasa Cash Back®** has no category restrictions on things like gas or groceries. Plus, you can avoid the danger of late or missed payments with this account. For that reason, using a checking account with cashback rewards is a smart and safe idea for saving money. If you already have to make your necessary monthly expenses anyways, why not earn extra cash with it?

### 2. Choose a Checking Account with High Dividends.

Typically, checking accounts are made for spending and therefore earn less interest than most savings accounts or no interest at all. What if there was a checking account that works like a savings account but has no strict withdrawal limits? **Kasasa Cash®** is a free checking account that lets you

earn a high interest rate with special features like unlimited check writing and no minimum balance requirement.

### **3. Open a Savings Account with Automatic Features.**

The more money you deposit to your savings account, the faster you can build your savings. But that's not always easy to do. **Kasasa Saver®** is a savings account with unique automation feature that helps you do that without much extra effort. If you have a Kasasa Cash or Cash Back accounts mentioned above, you can link them to a Kasasa Saver®. Then, the rewards you earn with those two checking accounts are automatically transferred to Kasasa Saver®. This way, you don't have to consistently make deposits or think about it, but your savings continue to while you sleep.
